

MEETING DATE/TYPE: STUDY SESSION MEETING 10-8-19

DEPARTMENT: Fire

AGENDA ITEM: Fire Department National Accreditation Presentation.

Approved By: Michael Lamar, City Manager

Item Summary

Provide a general overview of the pursuit of National Accreditation through the Commission on Fire Accreditation International (CFAI) by the Prescott Fire Department.

Background

Early in CY 2018, Prescott Fire Department began its quest to become a nationally accredited agency under the umbrella of the CFAI. This undertaking involved local engagement with our citizens, elected officials, and our employees as we worked toward the comprehensive development of our Community Risk Assessment/Standards of Cover, Strategic Management Plan that works to further the city strategic plan, and the Fire and Emergency Services Self-Assessment Manual.

With the completion of the aforementioned documents, the Prescott Fire Department seeks to share the steps to the process and details relative to the upcoming site visit to be conducted by third-party non-affiliated fire and emergency services professionals in order to verify and validate the Prescott Fire Department as being credible in ten (10) key performance indicators.

Financial Impact

None
