

MEETING DATE/TYPE: VOTING MEETING 10-8-19

DEPARTMENT: Public Works

AGENDA ITEM: Adoption of Resolution 2019-1720, Approving a Sewer Service Reimbursement Agreement, District #93, for the Old Kettle Dr. Sewer Reimbursement District.

Approved By: Michael Lamar, City Manager

Item Summary

This item is to approve a Sewer Service Reimbursement District Agreement between William W. Watson and Stanley L. Moore and the City of Prescott, for the Old Kettle Drive sewer main line extension, which was completed by Mr. Watson and Mr. Moore in July 2019. The Agreement provides for payment by other parties connecting to the main line in the future for their proportionate shares of the line cost.

Background

William W. Watson and Stanley L. Moore installed approximately 1,521 LF of 8-inch sewer main and 5 manholes.

Mr. Watson and Mr. Moore are requesting formation of a reimbursement district in accordance with City Code 2-1-11, Utilities Division; Extension of Sewer Mains, to provide a means of partial recovery of the \$113,580 cost of the main extension. Approval of the attached Sewer Service Reimbursement Agreement District #93 would create the mechanism for recovery. The basis for proportionate reimbursement as set forth by Attachments "1 and 2" is an equitable division per connection. The Agreement would remain in effect until Mr. Watson and Mr. Moore are reimbursed by other benefitting properties or fifteen (15) years, whichever comes first.

Financial Impact

There is no fiscal impact to any City fund. Any reimbursements collected through Sewer Service Agreement District #93 would be remitted to William W. Watson and Stanley L. Moore.
