RE: APSCO Utility Easement Request
WA437572

Dear Mr. Hersh,

Recently Arizona Public Service Company was requested to provide electric power on City property to serve a new pump station on South Virginia Street.

In order to accomplish this, we need to acquire an easement for our facilities on City property. Please review the enclosed document and prepare it for Council approval. Once approved, return the document to my attention for recording.

If you have any questions, feel free to call me at (928) 443-6664. Your cooperation in this matter is genuinely appreciated.

Sincerely,

A handwritten signature in blue ink that reads "Pat Fraher" with a long horizontal flourish extending to the right.
